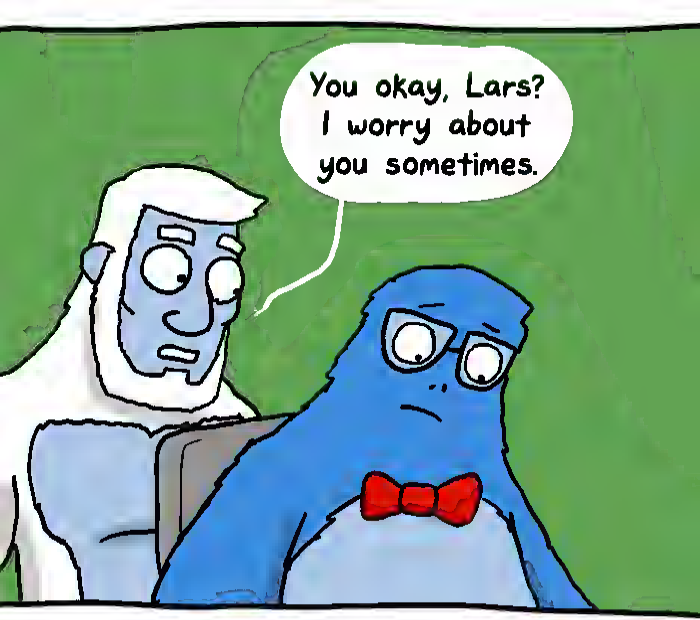
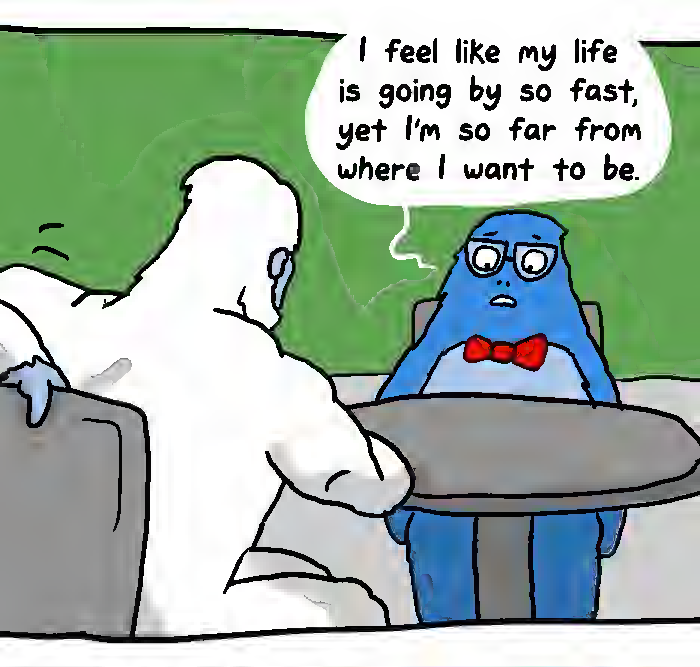
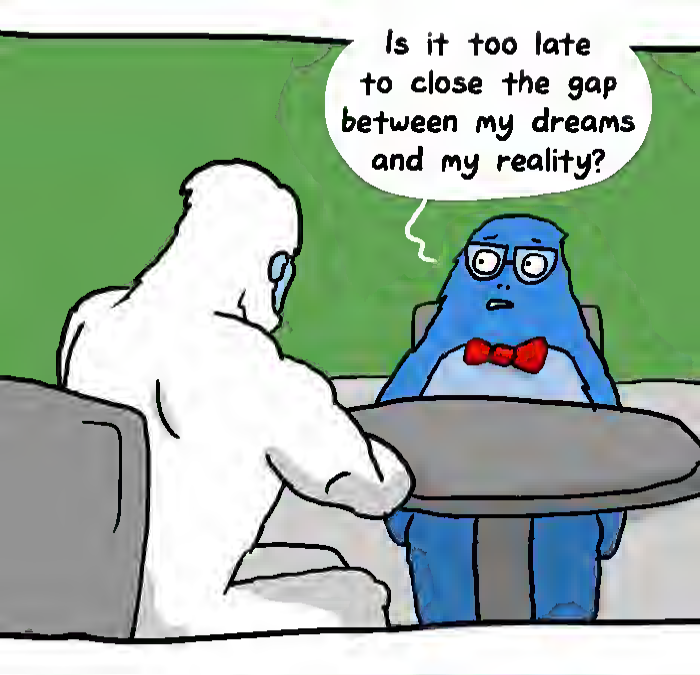
Lars



You okay, Lars? I worry about you sometimes.



I feel like my life is going by so fast, yet I'm so far from where I want to be.



Is it too late to close the gap between my dreams and my reality?

Of course not, Lars! You just need to get out there...

And be incredibly attractive!

That's the worst advice I've ever heard.

Okay yeah, I can see your point since you're weird looking.

Have you considered having a lot of money?
